Apologies – I attached the wrong AOP figures for the CVD example. See new file attached.

### Cascio Risk Assessment Figure Draft.ppt

Thanks everyone for the careful review and comments. I have combined and incorporated edits as appropriate in the attached 'clean' version. The attached track version is somewhat hard to read, but here for reference if needed.

Some comments remain for us to discuss on Monday and/or I can follow-up individually for clarification, but for the most part I think we are nearly there. Many of the remaining comment bubbles are for specific references to be added.

For Monday's meeting, I propose we discuss the following:

1. Any key remaining issues:
  - a. Proposed new title
  - b. Continue to discuss as a framework, or a new perspective?
  - c. Other?
2. The two figures
3. The concluding paragraph
4. Proposed journal (still thinking EHP?)

Following Monday's meeting I'll finalize, cut down to the correct length, and polish up for Tom's review. Ideally we'll get this submitted in early to mid-September.

Please let me know if there is anything else you want to tee up for discussion Monday.

Thanks!

Maureen
